

cutting through complexity

Audit Committee Institute

Sponsored by KPMG

The Audit Committee Institute presents:

The Local Government Programme 2012

Training and development
for audit committee members
and councillors of local authorities

The background of the entire page is a close-up photograph of a wooden cabinet with many small drawers. Each drawer has a metal handle and a small white label with black text. The focus is on one drawer in the foreground, which has a label that reads 'NORTHUMBERLAND, History - Hi'. The lighting is warm, highlighting the texture of the wood and the metallic sheen of the handles.

NORTHUMBERLAND,
History - Hi

Are you a councillor with audit committee chair or member responsibilities?

If so, then KPMG's ACI Local Government Programme, specifically designed for the local authority audit committee, may be exactly what you need.

Following a successful and well attended series of launch events in autumn 2011, KPMG's Audit Committee Institute evening events, designed specifically for local authority audit committee members, return in 2012.

These events provide a mixture of presentations and round table discussions, offering a forum for audit committee members to network, share ideas and hear from KPMG specialists and invited speakers. The events support members in enhancing the effectiveness and impact of their audit committees in increasingly challenging times.

The impact of the dramatic reductions in funding being experienced by local authorities will be felt even more keenly in 2012. The changes to service provision and service delivery that will result from localism and the Open Public Services white paper will combine with many other developments – from business rates reform to the drive towards universal credit – to create an environment of considerable uncertainty and complexity.

These events will provide briefings on topical issues and consider the role of effective audit committees in times of unprecedented change.
